Packing basket, loose, for quick-change system <i>proline</i>	PM-ZPM-3	<b>1.380,-</b>

## PARALLEL CHAIN CONVEYOR

**That's how conveying works!**  
Log feeding with a forestry crane, tractor or forklift is no longer a problem with the variable-size cross conveyors.

### /// FAST, CLEAN AND ECONOMICAL PACKAGING

The 1200 mm × 800 mm filling drum allows the use of Euro pallets as well as disposable pallets. Due to the rectangular shape, no space is wasted during transport and storage. The firewood packages can also be stacked on top of each other. A 3-point linkage as well as the straps for forklifts are available for transporting the packaging machine.
